

The ClearPlex guarantee

ClearPlex is guaranteed not to peel, bubble, crack or yellow. When installed properly, ClearPlex is virtually invisible. With ClearPlex you will also have a faster run-off of rain, snow and other elements, ensuring better visibility. ClearPlex offers a one-year or 12,000 mile limited warranty on all ClearPlex products. Details of the warranty are found on the warranty hanger.

Protect your windshield from the hazards of the road today. Call **801-571-8243** or contact your local dealer for more information.

ClearPlex...the best protection you'll never see.

Protect your windshield

Driving on today's highways can be hazardous – especially on your vehicles' windshields. But now you can protect your glass with ClearPlex Invisible Windshield Protection Films®.

ClearPlex is the first and only optically-clear protection film for auto windshields. The patent-pending product absorbs the impact of standard road hazards – significantly reducing the occurrence of rock chips, stars, pitting and bull's eyes – leaving the glass in pristine condition.

ClearPlex is a whole new vision in windshield protection. The film is guaranteed not to peel, bubble, crack or yellow – providing virtual invisibility for the warranted life of the film.

Reduce heat & UV

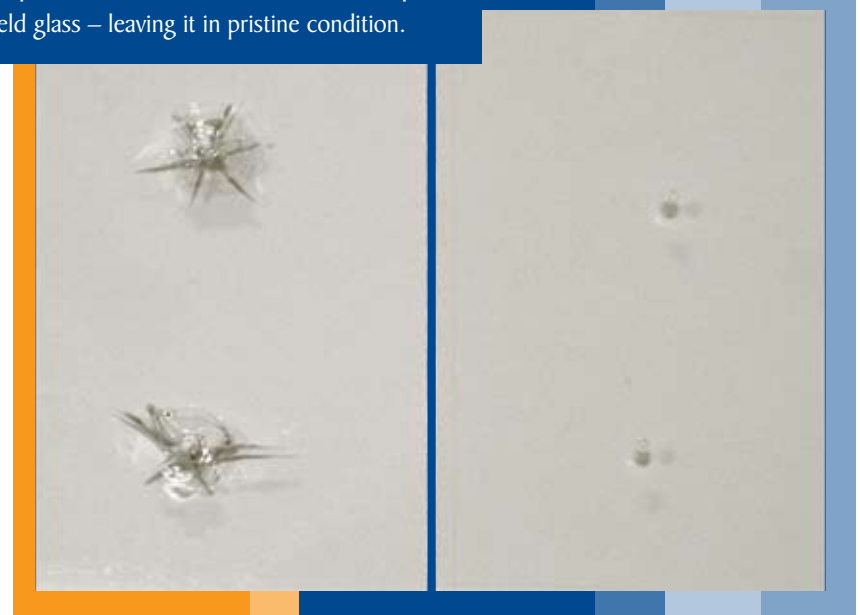

ClearPlex also features UV stabilizers which help reduce the amount of heat in your vehicle and help prolong the life of your interior.

Thermally fitted to every curve

The ClearPlex film is thermally fitted to every curve of the windshield, forming a bond with the glass, and ensuring optical clarity. Depending on the windshield, installing ClearPlex can take less than a half an hour by a certified installer.

The left side of the graphic shows the result of rocks hitting an unprotected windshield at 60 m.p.h. The right side of the graphic shows the results of the same impacts on a windshield protected by ClearPlex Invisible Windshield Protection Film®. The impacts leave only a small dimple in the film, but do not nick or chip the windshield glass – leaving it in pristine condition.

Impact & scratch resistant

ClearPlex is designed to take whatever the road dishes out. Impacts which shatter unprotected glass leave only a minimal pin-point on the film, preserving its optical clarity. Like glass, ClearPlex is scratch resistant and stands up to everyday abrasions (including windshield wipers).
